Create Handle:

Round 1:

Step 1: With colour 10, knit 86 stitches, drop yarn.

The handle will be made from the centre 46 stitches on each side.

Make handle as follows:

Step 2: Turn work. Using Colour 11a purl 46 stitches. Turn work. work attached i-cord for 46 stitches. Continue i-cord (not attached) for 160 rows. (As it turns out, from my first prototype 50 stitches are too few and with this second attempt 160 are way too many. I would suggest if you want a bit of a space for your arm, but not a mile of handles, that 90-100 would be about right. The down side of felting is, what is done, is done and I can't take it out on mine, but you can learn from me. See photos to get an idea of the length you might like.) Graft end of i-cord to the beginning of the attached i-cord (You are finished with colour 11a)

Step 3: Return to where you dropped colour 10. Continue with colour 10, knitting 126 stitches. Drop colour 10.

Step 4: Turn work. Using Colour 11b purl 46 stitches. Turn work. work attached i-cord for 46 stitches. Continue i-cord (not attached) for 160 rows (or same as previous handle). Graft end of i-cord to the beginning of the attached i-cord. (You are finished with colour 11b)

Step 5: Return to where you dropped colour 10. Continue with colour 10, knitting 40 stitches.

Round 2: With Colour 12, knit 40 stitches. Pickup and knit 160 stitches from top of the i-cord. Knit 80 stitches.

Pick up and knit 160 stitches from top of the second i-cord. Knit 40 stitches. (480 stitches)
